

Subject: Request for Strategic Meeting – Investment Framework, Management Introduction & Definitive Engagement Terms

Dear General Gen Kuol Manyang Juuk,

Greetings from **LaxmanDeep Financial Services Private Limited.**

Further to our ongoing discussions regarding the proposed investment and strategic engagement with LaxmanDeep Financial Services Private Limited, we would like to formally request a meeting with you to align on the next steps and establish a clear framework for moving forward.

The purpose of the meeting would be to introduce our **management and leadership team**, discuss the proposed investment structure, and ensure that all commercial, operational and legal aspects are clearly understood by both parties.

We would particularly like to discuss the following key matters:

1. Investment Channelisation

A detailed discussion on the **proposed investment amount, investment structure and channelisation of funds into the identified projects/business initiatives**, including the proposed allocation, deployment milestones and governance mechanism for utilisation of the investment.

The existing MOU between LaxmanDeep and Swiss Capital Group envisages strategic projects and the future execution of definitive agreements for the project framework.

2. Introduction to the Management Team

We would like to introduce you to the key members of the LaxmanDeep management team, explain their respective responsibilities and establish clear points of contact for investment execution, project implementation, finance, compliance and business development.

3. Investment Timeline / Deadline

It would be important to mutually establish a **definitive timeline for the proposed investment**, including:

- Confirmation of the investment commitment
- Completion of due diligence, if applicable
- Execution of definitive agreements
- Initial investment/tranche
- Subsequent investment milestones
- Project commencement and implementation timelines

This will enable LaxmanDeep to align its management resources, project planning and financial commitments accordingly.

4. Definitive Agreement Between General Gen Kuol Manyang Juuk and LaxmanDeep

We would also appreciate discussing and agreeing upon the appropriate **legal and commercial agreement governing your engagement/investment with LaxmanDeep Financial Services Private Limited.**

The existing MOU specifically contemplates that definitive agreements, including a **Joint Venture Agreement, Shareholders' Agreement and other commercial, operational or licensing agreements**, may be required depending upon the final structure.

Accordingly, we would like to clarify whether the proposed engagement should be documented through an **Investment Agreement, Share Subscription/Shareholders' Agreement, Strategic Partnership Agreement, or another mutually agreed structure.**

5. Terms & Conditions of the Engagement

We would also request that any specific **terms, conditions, obligations, representations, investment conditions, return expectations, governance rights, exit provisions, confidentiality requirements, responsibilities of each party and applicable compliance requirements** be discussed and documented before the investment is formally proceeded with.

Our objective is to ensure **complete transparency, proper governance and a clearly documented understanding between all stakeholders** before funds are committed or deployed.

We therefore propose a **formal meeting at your earliest convenience**, either in person or through a video conference, with the LaxmanDeep management team and relevant representatives.

We believe that a structured discussion at this stage will allow both parties to establish clear responsibilities, timelines and documentation and provide a strong foundation for the proposed investment and strategic relationship.

We look forward to receiving your preferred date and time for the meeting.

With regards,

LaxmanDeep
